The Committee was reminded that, at its meeting on 6th February, it had agreed to invite representatives from the Northern Ireland Environment Agency to attend a future meeting to provide an explanation of the Listing process and to provide an overview of the Second Survey work which that organisation was undertaking. It was reported that Mr. A. Turkington and Mr. M. Deery were in attendance and they were admitted to the meeting and welcomed by the Chairman.

Mr. Turkington provided an overview of the areas to be surveyed within year 3 of the Second Survey process. He outlined the reasons for choosing those Wards as being areas with a high level of planning activity; the length of time which had elapsed since the First Survey; and the geographical spread therein. He reported that the Second Survey was being undertaken using criteria which assessed both architectural and historic conditions, together with consideration of the style, proportion, ornamentation, plan form, spatial organisation, structural system, innovatory qualities, alterations that detract or enhance, quality and survival of interiors, setting, group value, age, authenticity, historic importance and associations, authorship and social, cultural or economic importance.

Mr. Turkington explained that, during year 3 of the Second Survey in Belfast, it had been identified that 195 buildings were listed currently, 233 buildings had been surveyed during the first survey but not listed and other buildings were being scoped presently by surveyors. He reminded the Committee that it had been requested previously to nominate any existing unlisted buildings which might be considered for Listing during the forthcoming survey. He outlined the process which had been undertaken during the Second Survey and provided an explanation of the meaning of Listing, together with an update on the assistance which was available from the Northern Ireland Environment Agency to the owners of Listed Buildings. A summary of the conservation areas and Areas of Townscape Character was provided also.

In conclusion, Mr Turkington updated the Committee on the arrangements which would exist after the Reform of Local Government had been completed.

After discussion, during which the representatives of the Northern Ireland Environment Agency clarified a range of matters for the Members in respect of grants funding; the formal appeals process; the overall budget available; and its enforcement powers, the Committee noted the information which had been provided.
