Call-in	
Is the decision eligible for Call-in?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>

1.0	Purpose of Report or Summary of main Issues
1.1	To consider the request from 'Friends of the Crescent' (FotC) to install gating at Crescent Park (South Belfast) and agree a financial contribution towards cost of installation.
2.0	Recommendations
2.1	The Committee is asked to: <ul style="list-style-type: none">• Consider the proposal for gating at the park and agree funding towards installation.• Agree to adopt, maintain and schedule opening and closing of gates post installation.
3.0	Main report
3.1	Over the last few years Friends of the Crescent (FotC) have been leading a campaign to enhance the open green space at Crescent Park, South Belfast. This asset which is owned by Belfast city Council is a valued open space for residents as well as those who work and study in the area. The aims of the group are:

	<ul style="list-style-type: none"> • To cherish the physical environment of the Crescent and its immediate vicinity to enhance its beauty and amenity. • To encourage and enable legal and safe use of the park by the public. • To ensure that the park and the Crescent area provide a welcoming and harmonious environment for everyone. • To engage with statutory bodies in the interests of the Crescent
3.2	<p>The Group believe that Crescent Park is particularly invaluable to the people who reside on or near the Crescent. The design of the Georgian townhouses, and indeed more modern local terraces, provide limited private outdoor space to occupiers. Therefore, the park, which was originally a communal garden for the residents of Upper Crescent, forms important green space that is required by the local people to this day. The park's proximity to Botanic Train Station, social venues, food outlets, schools, QUB and large corporate entities means it is also of high value to thousands of individuals who commute through it and/or use it as a social space regularly.</p>
3.3	<p>FotC are aware that for many years the Crescent has been a hotspot for anti-social behavior and substance. A combination of commercial premises closing in the early evening, derelict buildings, the hidden location of the park, and a lack of general maintenance has contributed to an environment where illegal activity has gone unnoticed. Such activity includes:</p> <ul style="list-style-type: none"> • Groups of aggressive and loud individuals inhabiting the park • Drug dealing • Alcohol and drug misuse • Reports of serious crimes – including knife crime • Littering • Urination in shrubbery
3.4	<p>Following a scoping exercise FotC produced 'Improving the Crescent' (Appendix 1) which details actions to address anti-social behaviour and increase the attractiveness of the park to all members of the public. One of the actions recommended the installation of gates (Appendix 2) at the 4 entrance points of the park. FotC understand that the installation of gates is a sizable structural project, however, following local consultation they have received unanimous support from residents and businesses supporting the proposed work.</p>

	<u>Financial & Resource Implications</u>
3.5	Total cost for the installation of gates at the 4 entrance of Crescent Park is £55,412 (excluding VAT)
3.6	FotC are willing to contribute £25,000 to the total costs of design, production, and installation of 4 heritage gates. They are requesting that BCC: <ul style="list-style-type: none"> • Contribute £30,412 to the installation costs of gates • Agree to adopt and maintain the gates immediately after they are installed and: • Add daily opening and closing of the gates to their existing schedule for other parks and open spaces in the same council area.
3.7	The costs are included within existing revenue estimates.
	<u>Equality or Good Relations Implications/Rural Needs Assessment</u>
3.8	Both an equality impact and a rural needs assessment will be completed for this proposal and these will be assessed by the Council's Equality & Diversity Unit.
