

## 5. RISE

This is a simple and powerful contextual piece of work. A new sun rising. Using the elegant and structurally strong principles and forms of the Geodesic dome this new artwork will celebrate a new chapter in the history of Belfast. People will be able to walk under the piece as it floats 7.5 metres above head height. The form and symbolism of the piece can be seen from any direction and from any vantage point. It will work on an intimate and iconic level.
