

ASB Programme Methodology

Steps

1. Antisocial behaviour report received from facility staff, elected representatives, PSNI, the public or media.
2. Undertake review of available evidence to determine the exact nature, impact and any trends in the incident(s).
3. Consult with relevant internal and external stakeholders to determine the appropriate intervention.
4. Determine if offences fit within the framework of the graduated approach to enforcement.
5. Assess the need and availability of resources where they will be most effective, establishing the level of support available for sustainable change.
6. Communicate actions through Committee, senior management, partners and media.
7. Monitor impact of intervention and review in partnership with other relevant stakeholders.
8. Share learning through networks, internet and other media.
