BELFAST**

**This is an invitation for you express
interest in being involved with The British Rock in 2012.**

**You can be deaf, blind, five years of age, ninety-five years of age yet still touch
the rock in celebration of Human Friendship.**

**Individuals, families and special community groups including yours, may gather
to enrich the process of touching. You can enrich this part of the event according
to your local values,**

**The rock, a Preseli Bluestone as used in the centre of Stonehenge will weigh
around 4 tons and will be moved on a special vehicle and off loaded to allow
public access for the touching during 2012.**

**It will leave for The International Peace Garden at the end of 2012. Rocks from
USA and Canada will travel in those countries and all three will be together in
2015.**

**You have been chosen because of links with Botanical Gardens and the very
special architecture that led to some of the finest Glasshouses in Britain. Richard
Turner's glasshouse at Belfast so inspired the authorities that Decimus Burton
was asked to work with him to create the Palmhouse at Kew.**

**There are Tourism and Merchandising benefits but the main driving force is
Human Friendship.**

**An early response of interest will ensure your input is designed into the rich
story we intend to tell.**

In anticipation of your valued reply ,

Yours sincerely,

Graham Burgess.
