

Appendix 2: Citywide responses and interventions

Citywide responses and interventions are implemented proportionately across all of the city's parks. This approach is used to tackle low level, re-occurring ASB incidents (parks with less than 20 incidents) and is delivered using existing and available resources.

- **Reports of "Drinking"**: the Park Wardens will visit the park to establish the extent of the issue and remove drinkers if present during park operational hours (dawn to dusk). Requests will be sought from the PSNI to monitor the site out of hours;
- **Reports of "Groups and gangs gathering"**: Park Wardens will define whether the groups and gangs are of serious concern or simply gathering in the park. If there are serious concerns then Park Wardens will assess if the groups can be engaged and safely dispersed using available resources. If not, then they will refer the issue to the PSNI and monitor the site until it is closed;
- **Reports of "Litter" and "Animal problems"**: Park Wardens will be scheduled to issue fixed penalty notices through enforcement operations during park operational hours of dawn to dusk when resources permit;
- **Reports of "Damage"**: Park Managers and supervisors will record and repair any damage. If the damage persists then specific operations will be developed to tackle the issue with the PSNI;
- **Reports of "Motorcycles"**: All reports of motorcycles in parks are shared with PSNI and if the problem persists then operations will be developed to tackle the issue with the PSNI; and
- **Reports of "Youths causing annoyance"**: Park Managers, Park Wardens and Outreach Managers will work with the community to identify the causes of these reports and find appropriate activities to engage the young people in.

Each individual park has its own unique visitor demographics, unique attributes and unique operational routines, all interventions and responses will be planned and designed accordingly.
