Public toilets in Belfast

We have 14 public toilets in Belfast. These toilets are located in the City Centre as well as the suburbs of the city.

In most locations we provide both male and female toilets and where possible we also provide baby changing facilities. Twelve of our toilets are fully accessible to people with disabilities.

We try hard to make sure our public toilets are consistently well maintained, and have won numerous "Loo of the Year" Awards.

You can find your nearest public toilet on our website
www.belfastcity.gov.uk/publictoilets

The Radar National Key Scheme

The Radar National Key Scheme offers people with a disability access to over 9,000 fully accessible toilets within the UK.

We are part of the Radar Scheme; we provide accessible toilets which are fitted with a Radar lock.

They are accessible during normal opening hours.

Belfast City Council residents who have a disability can contact us to apply for a Radar key.
