37,611

applicants were on the housing waiting list at 31 March 2017

86,069

homes managed by the Housing Executive

23,694

of these classified as being in housing stress

367,412

repairs were carried out at a cost of £41.9m, which equates to approximately four repairs per dwelling

11,488

housing applicants were deemed to be homeless after investigation

£511

the average amount we spent on each dwelling for repairs

4,740

approvals were issued to private households to assist with insulation and heating measures through the Affordable Warmth Scheme

£107.3m

invested in over 23,000 homes

1,604

new homes were started through the Housing Executive's Social Housing Development Programme

7,970

social homes were allocated last year

19,060

housing support places were provided to assist the most vulnerable citizens in our local community

£336m

we collected 99.87% of rent and rates on our properties

1,070

Disabled Facilities Grants were approved to the value of approximately £11.3m

500

community groups worked in partnership with us through the Housing Community Network

668

mandatory Repair Grants were approved

0.31%

lettable voids continue to remain low, with only 0.31% of our stock vacant

£671m

paid out in Housing Benefit payments

61,263

claims for Housing Benefit assessed and 510,831 changes made to existing claims

£860,000

awarded through our Social Housing Enterprise (SHE) Strategy, with 99 schemes supported and 25 new initiatives created

61

jobs created or supported by SHE initiatives

Foreword

In 2015 we published our four year Housing Investment Plans (HIP). These plans identified housing-related desired outcomes, and were intended to initiate discussions with councils and other stakeholders in order to develop a shared vision for the future of housing in each council area.

Last year we published our first HIP annual update, and now we are publishing the second annual update. This update reports on the progress of the Housing Executive and other agencies to achieve the intended outcomes, and on how we plan to deliver housing ambitions over the remaining two years of the HIP, and the longer term.

In 2015, new powers were given to local councils, including responsibility for planning and a duty to produce a Community Plan. The Housing Executive, as a statutory partner in planning and Community Planning, has engaged with the new Local Development Plan (LDP) and Community Planning teams, other statutory partners and community representatives.

Joint working throughout the last year has enabled us to develop strong

relationships and also to benefit from collaboration and the sharing of information. The HIP has been instrumental in this process.

Close working with stakeholders, and our role in the Community Plan are key elements in the Housing Executive's 'Journey to Excellence' programme, which aims to deliver top class housing and regeneration solutions that meet the needs of communities and partners, now and in the future.

We look forward in 2017 to developing further our relationships with councils and other stakeholders through the various planning and Community Planning processes to build lasting housing solutions that benefit the whole community.

Professor Peter Roberts
Interim Chair

Introduction

In 2015, the Housing Executive published the Belfast Housing Investment Plan (HIP) 2015-19, which aims to provide a long term and ambitious vision for the development of housing. This is the second annual update which records progress of actions set out in the HIP for 2015-19, HIP update 2016-17 and details new proposals for 2017-19. The annual update should be read in conjunction with the HIP 2015-19.

This annual update will not only show how the actions contribute to achieving the HIP outcomes but also how they can support the delivery of the emerging Belfast Community Plan outcomes.

The HIP sets out a strategic direction for housing across all tenures, both new and existing. Proposals detailed within this annual update seek to achieve this by promoting development, improving health and wellbeing, reducing inequality, and by creating more cohesive, safe, vibrant and successful places for all.

Since the publication of the HIP, the Housing Executive, as a statutory Community Planning and Local Development Plan (LDP) partner, has welcomed the opportunity to work with the council and stakeholders to incorporate and embed the HIP vision and outcomes within Community Planning and LDP processes.

With limited and reduced public resources, the partnership approach, which the Community Plan facilitates, will become increasingly important to deliver good quality services and housing solutions for local communities.

The annual update retains the HIP framework based around five themes and associated outcomes. Detailed information of proposals is set out in the Appendices. All statistics in this document refer to Belfast City Council unless otherwise stated.

Vision

The housing sector throughout Northern Ireland faces a number of challenges in the current economic climate but is committed to working in a way that goes beyond a simple 'bricks and mortar' approach. The housing vision for Belfast is one where:

"housing plays its part in creating a peaceful, inclusive, prosperous and fair society..."

This vision for Belfast seeks to deliver sustainable communities, living in dwellings of a decent standard and in sufficient numbers to meet local needs in both urban and rural areas.

HIP Themes and Outcomes

Success for housing providers necessitates measuring the effect of interventions therefore, under each of the five themes, a number of outcomes have been identified.

Themes and Outcomes

THEME ONE

Identify and meet housing need and demand

1. Identify new housing requirements.
2. Increase the supply of affordable renting to meet the needs of communities.
3. Assist home ownership.

THEME TWO

Improving people's Homes

4. Improve the quality of the housing stock.
5. Develop low carbon homes and reduce fuel poverty.

THEME THREE

Transforming people's lives

6. Provide suitable accommodation and support services for vulnerable residents.
7. Homelessness is prevented or is addressed effectively.

THEME FOUR

Enabling sustainable neighbourhoods

8. Regenerate neighbourhoods.
9. Create safer and cohesive communities.

THEME FIVE

Delivering Quality Services

10. Deliver better services.

The Belfast Agenda

Community Planning Outcomes

1. Everyone in Belfast benefits from a thriving and prosperous economy
2. Belfast is a welcoming, safe, fair and inclusive city for all
3. Everyone in Belfast fulfils their potential
4. Everyone in Belfast experiences good health and wellbeing
5. Belfast is a vibrant, attractive, connected and environmentally friendly city.

The HIP and the Community Plan

Belfast City Council and its statutory partners have been preparing a Community Plan, the Belfast Agenda, which has a bold and ambitious vision: "Belfast will be a city re-imagined. A great place to live for everyone. It will re-energise and drive a successful economy where everyone can reach their potential. Beautiful and well connected, it will be a shared city and loved by all its people and admired around the world. It will be a producer and a magnet for talent, investment, innovation and creativity, a compassionate place where people create value and are valued."

To achieve this vision the Council and its partners will work towards these adjacent outcomes.

Housing has a key role in this process and can contribute to achieving many of these actions. Housing can have a positive effect on health and wellbeing, regeneration and the environment, community cohesion and neighbourhoods, combating fuel poverty and promoting the use of renewable energy and assisting economic growth.

The HIP themes are complementary to many of the Community Planning themes. Each action under the HIP themes can contribute to the achievement of Community Planning outcomes. In addition, actions contained within the HIP often contribute to more than one Community Plan outcome.

The HIP and the Local Development Plan

Belfast City Council Local Development Plan (LDP) will replace the Belfast Metropolitan Area Plan (BMAP 2015) in 2020. The Housing Executive has provided a full submission on its analysis of the housing market to inform the preparation of the LDPs Preferred Options Paper.

The LDP will influence housing development in Belfast for 15 years from 2020. It is therefore important that the Community Plan and HIP themes and outcomes be taken into account in the preparation of the LDP.

It is important that the emerging LDP, through engagement with local communities and elected representatives takes the opportunity to develop a housing strategy for Belfast.

The plan will address land availability for housing across Belfast. It will examine the take up of zoned land with the correct development plans. The LDP will be the main vehicle for assessing future housing land requirements.

Housing allocations will be determined by:

- Housing Growth Indicators (HGIs);
- Allowance of existing commitments;
- Urban capacity studies;
- Housing Needs Assessment;
- Allowance for windfall housing sites; and
- Residual housing need.

The LDP has an important role to fulfil in terms of the allocation of new housing across the council area. This is crucial given the aspiration within the LDP to increase the population of Belfast by almost 70,000 people and develop an additional 37,000 new homes in the period to 2035.

Context

Strategic Context

The HIP annual update has been developed within the context of the Northern Ireland policy framework.

The White Paper, 'Fixing Our Broken Housing Market'

The new housing strategy for England was launched for consultation in February 2017. The White Paper unveils plans to change focus from Starter Homes to building a wider range of affordable homes.

The Government will also consult on a standardised calculation of housing demand to force councils to produce 'realistic' local plans. The White Paper outlines plans that will see builders given two years to start developing sites after planning permission is granted, rather than three; a presumption in favour of development on brownfield land and an aspiration for high density housing in areas of limited land availability. All of these issues and the proposed approaches may also shape thinking in Northern Ireland.

The draft Programme for Government (PfG)

The draft PfG contains 14 high level outcomes, and 48 indicators. While our work supports many of the outcomes in the draft PfG, there is no specific 'housing outcome' included. Nevertheless, housing and many other elements of the work of the Housing Executive are cross-cutting, especially in relation to place-making and help achieve many of these PfG outcomes. Our investment plans and activities, as set out in this Plan, illustrate how and where our plans can contribute directly and indirectly to the delivery to not only local Councils' Community Plans, but also many of the overall PfG outcomes.

Welfare Changes

Changes to the benefits system in Northern Ireland for working age claimants came into effect with the introduction of the Welfare Reform Order (NI) 2015 on 10 December 2015.

Each of the changes has had an impact on the Housing Executive with the key changes being Benefit Cap, Social Sector Size Criteria (sometimes referred to as 'Bedroom Tax'), Housing Benefit changes and freezing of the Local Housing Allowance.

The Northern Ireland Executive has put in place arrangements to provide financial support for people impacted by some of the changes to the welfare system.

The Housing Executive is working closely with the Department for Communities (DfC) to provide advice and assistance to tenants and housing applicants who are likely to be impacted by these welfare changes.

Housing Benefit Changes

A number of changes have impacted housing benefit since September 2016:

- Backdating rules have been amended for working aged claimants;
- Family premium has been removed for new claimants or existing claimants who start a family or have a break in claim;
- Temporary absence rules have been introduced from 30 January 2017, reducing the period claimants can be absent from their home;
- Social Sector Size Criteria was introduced on 20 February 2017 for social housing tenants who have more bedrooms than their household requires; and
- From 11 May 2017, restrictions will apply in the assessment of Housing Benefit, limiting dependent premiums to 2 children, unless in exceptional cases.

Universal Credit is due to be introduced in September 2017, with a phased implementation for roll-out across NI by September 2018. Universal Credit will replace a number of working age benefits, including Housing Benefit. A Rates Rebate replacement project will also be effective from September 2017, led by LPS, for those claimants moving to Universal Credit who require assistance with payment of Rates charges as a separate application to LPS will be required.

The Homelessness Strategy has five objectives

Homelessness Strategy

In line with our statutory duty the Housing Executive published a new Homelessness Strategy in April 2017. The Homelessness Strategy 2017-22 has a vision of ‘Ending Homelessness Together’ and this vision is reflective of our engagement with the sector in the development of this Strategy. This engagement and a statutory consultation noted the need for statutory and voluntary agencies to work with the Housing Executive to prevent homelessness and address issues arising from homelessness.

Each objective has associated short, medium and long term key milestones that are outlined in the document. The Homelessness Strategy 2017-22 is on the Housing Executive website at

http://www.nihe.gov.uk/northern_ireland_homelessness_strategy.pdf.

It is accepted by government that homelessness is a cross cutting issue and the Strategy will therefore, be supported by a Cross Departmental Action Plan led by the DfC which will outline key actions that will enable collaborative working across government to improve the lives of homeless clients across Northern Ireland.

Delivery Strategy

Social Housing Development Programme (SHDP) delivery targets have been consistently met over the past ten years through strong partnership working between DfC, Housing Executive, housing associations and Northern Ireland Federation of Housing Associations (NIFHA). However, there remain a number of significant challenges, and it was recognised that a new strategy was required in order to overcome some of the barriers to successful long-term delivery of new social and affordable housing.

In response, following a process of detailed consultation and engagement, the SHDP Delivery Strategy was produced. The key objectives of the Strategy are:

- More sustainable neighbourhoods through effective place shaping within Community Planning;
- Reformed delivery of social and affordable housing to create a more flexible and responsive system;
- 8,000 new social housing units and at least 2,800 new affordable homes delivered, over a four year period to 2020 (subject to available funding), to meet housing need and demand.

An action plan was developed as part of the Strategy and it will be implemented between 2017 and 2020 in order to bring about an enhanced delivery system for new social and affordable housing.

House Condition Survey 2016

The House Condition Survey 2016 is progressing. Work has completed on fieldwork, translation, validation and analysis of the data. A preliminary report was published 30 March 2017 and is available on the Housing Executive website. Modelling work has been procured and began in May 2017. The full report is due to be published early 2018.

HMO Bill

The HMO Bill received Royal Assent in May 2016 and this legislation provides powers for Councils to develop and implement HMO Licensing Schemes. It is anticipated that this area of responsibility will be transferred to Councils by April 2018. The Housing Executive is fully committed to working with the Councils and DfC to ensure this transition is facilitated.

Housing Strategy 'Facing the Future'

In September 2015 an action plan update was published, setting out progress on 33 actions emanating from the Housing Strategy, the majority of which are on track for delivery by 2017.

The action plan sets out ongoing implementation of the Social Housing Reform Programme and policy proposals to include:

- A social housing rent policy;
- Tenant Participation Strategy;

- Regulatory Framework for Social Housing Providers; and
- Engagement of the housing system with local government.

The Review of the Social Housing Allocation Policy by DfC is underway and any proposals for change will be subject to public consultation. The Housing Executive continues to work closely with DfC to progress this review.

DfC commenced the Review of the Role and Regulation of the Private Rented Sector (PRS) in November 2015. The aim of the review is to consider the current and potential future role of the sector and assess the effectiveness of current regulation, identifying where improvements can be made to help make the PRS a more attractive housing option.

A public consultation was launched in January 2017 with a number of proposals including:

- Restriction of the number of times rent can be increased in a 12 month period;
- Introduce a minimum notice to quit period from four weeks to two months; and
- Introduce a regulatory framework for letting agents.

Rural

The Housing Executive provides a range of services tailored specifically for those living or wanting to live in rural areas.

In 2016, the Housing Executive launched 'Sustainable Rural Communities' the refreshed Rural Strategy & Action Plan 2016-2020, which is aimed at identifying the housing needs of rural communities and working with housing providers, councils, public bodies and rural stakeholders to ensure that where possible, needs are addressed.

Facing the Future: The Housing Strategy for Northern Ireland Action Plan Update 2015

In 2017/18, the Housing Executive is committed to carrying out a review of policy and procedure for identifying hidden rural housing need, examining the potential to increase housing association involvement in the process. It is hoped that this partnership approach will encourage more people to come forward and may also broaden the scope to include an examination of the demand for affordable/mixed tenure housing.

Asset Management Strategy

The Housing Executive's new Asset Management Strategy was approved in early 2016. The Strategy adopts an 'active asset management approach' in which investment decisions are based on the performance of the stock in supporting the Housing Executive's business plan and its landlord objectives.

Belfast

Housing Investment Plan Annual Update 2017

In the past year, the Housing Executive has been assessing its stock using the work carried out by Savills in the DfC/Housing Executive Joint Asset Commission in 2014/15. The Strategy also includes a new investment standard - the Commonly Adopted Standard - as the basis for investment in the modernisation and maintenance of our housing stock.

The Housing Executive has been carrying out work to develop a new 10 Year Investment Plan based on the principles set out in the Strategy. However, future funding is uncertain and much will depend on the outcome of the Social Housing Reform Programme delivering a way forward that will secure sufficient funding to meet our stock's investment needs.

HECA Report 2016

Tower Block Strategy

The Housing Executive has prepared a strategy for its 32 tower blocks as part of its overarching Asset Management Strategy. This strategy determined that option appraisals should be carried out for each block given the various issues around investment needs, management and maintenance costs and housing demand.

A report on these appraisals was presented to the Housing Executive's Board for consideration at its meeting in November 2016. The Board requested that officers develop a comprehensive action plan for each tower by August 2017. However, following the fire in Grenfell Tower in London, the development of this plan will now be put on hold until the Housing Executive has had the opportunity to consider any preliminary findings from investigations into the fire and any potential implications arising from these.

Home Energy Conservation Authority (HECA)

The Housing Executive has released the 20th progress report which records the key outputs by the organisation, and other agencies, in improving the energy efficiency of housing in Northern Ireland. In the past year the Housing Executive invested over £21m for heating conversions in their homes and invested a further £8m on innovative schemes under the NI Sustainable Energy Programme.

Housing Growth Indicators (HGIs)

HGIs are estimates of new dwelling requirements based on new household projections. In 2016, the Department for Infrastructure (DfI) realigned HGIs for Northern Ireland, based on

2012 household figures. The current estimate for NI 2012-2025 is 94,000, approximately 7,200 per annum.

Together Building United Communities (TBUC)

The Housing Executive continues to work with housing associations to fulfil the NI Executive ambition to deliver ten new build shared housing schemes as part of the TBUC programme:

- Ravenhill Road, Belfast (Apex) - completed December 2014;

- Ravenhill Avenue, Belfast (Fold) - completed October 2016;
- Crossgar Road, Saintfield (Choice) - completed January 2016;
- Burn Road, Cookstown (Fold) - completed December 2016;
- Felden, Newtownabbey (Clanmil) - completed March 2017;
- Antrim Road, Ballynahinch (Choice) - expected to complete October 2017;
- Market Road, Ballymena (Choice) - expected to complete November 2017;
- Main Street, Dundrum (Clanmil) - expected to complete February 2018;
- Dromore Street, Banbridge (Clanmil) - expected to complete June 2018;
- The Embankment, Belfast (Clanmil) - started January 2017.

Local Context

Belfast is the capital of Northern Ireland with a population of almost 340,000. The City provides major opportunities for employment, learning, shopping, leisure and entertainment. It drives much of the economic growth across the region.

This section summarises the Belfast housing market and issues that have potential to affect its future development.

Housing Market Update

The population of Belfast is growing slightly, however the Belfast Agenda and the emerging LDP foresee a rapid expansion of the population in the period to 2035. An increase of almost 70,000 is forecast over that period. This will require an additional 37,000 homes, an average of 1,750 per annum, phased to align with infrastructure capacity and provision.

The local housing market is slowly recovering from the economic crash of 10 years ago. House prices have increased slowly in recent years but private sector building activity remains low and mortgage lending remains inhibited despite historically low interest rates. Prices in Belfast actually fell in the latter part of 2016, reflecting the market uncertainty prevalent since the Brexit vote.

Owner Occupied Sector

The average price of properties sold in Belfast in 2016 was £163,665. This represents a small decrease on last year's average price. However, since early 2014, house price change has been one of relative stability.

The majority of estate agents report that market uncertainty is likely to be a strong influence on both the Northern Ireland economy and the local housing market in the coming year.

There is considerable variation across different property types throughout Belfast. Semi-detached houses and apartments have reduced in price over the past year while detached houses and bungalows have increased. Sectoral differences are also apparent; South Belfast remains the highest priced sub market while North Belfast is the lowest. First time buyers are still experiencing difficulty in obtaining mortgage finance; this effectively puts a brake on market activity.

The LDP has set a target of 37,000 new homes in Belfast in the period up to 2035. Given that owner occupation is the dominant tenure in the City, it is reasonable to expect that a significant number of the new homes will be owner occupied. This is a challenging target and will require a change in approach to density, urban massing and land use.

Private Rented Sector (PRS)

The PRS continues to play a significant role in the local housing market. Local estate agents report that there is continuing strong demand for private rental accommodation at the top end of the market and in the Lisburn Road, Ormeau Road and Stranmillis areas. Terrace properties and apartments bought during the 'buy to let' boom of the early 2000s provide most of the stock in the PRS.

Local estate agents have indicated that key drivers affecting the PRS in Belfast include:

- high demand for private rental;
- no net additional supply;
- high demand and low turnover in the social housing sector;
- job and income uncertainty;
- lower numbers of private new build development;
- lending restrictions; and
- an oversupply in certain areas.

The PRS will play an increasingly important role meeting the needs of younger households on lower incomes, who in previous decades would have become first time buyers. High levels of demand for social housing in some areas will also continue to underpin the demand for private rented accommodation.

Housing Benefit continues to play a vital role in supporting low-income tenants in the PRS. The increasing impact of welfare reform will affect the sector in the near future, the freeze of the local housing allowance which could potentially exclude households from certain areas and property types.

The rapid expansion of purpose built student accommodation in the City to coincide with the relocation of the Ulster University into the city centre will impact those areas traditionally associated with student lets, most notably the Holylands. The Housing Executive is working with South Belfast Partnership Board to research the effects of this. The impact of these new developments will be closely monitored over the period of the HIP and beyond.

Purpose built student housing in Belfast

New Lodge Redevelopment

Whilst it is envisaged that the risk of disinvestment in the sector is low, the market is unsure of the effect of the recent tax changes for private landlords. This matter will also be closely monitored.

Social Housing Sector

The requirement for new social housing in Belfast has consistently increased since 2010. The five-year assessment for 2016-21 shows a need for approximately 5,500 additional units. Need is apparent in all four sectors of the City (North, South, East and West). Single person households and small families account for almost three quarters of the total waiting list, reflecting the trend toward smaller households which is evident throughout Northern Ireland. The predominance of single and smaller family households and the welfare reform agenda will mean that new social housing will comprise a high proportion of one and two bedroom dwellings.

Land availability is a key issue for the future delivery of social housing in Belfast.

Housing associations report difficulties in obtaining sites in areas of housing need throughout the City. This results in housing associations having to acquire sites on the open market and therefore subject to market price fluctuations. To address social need, the Housing Executive's three year SHDP has almost 3,000 new social housing units planned for Belfast.

The LDP has an important role to fulfil in terms of the allocation of land for new housing across the council area. This is particularly important given the aspiration to increase the population of the City by 70,000 by 2035.

Regeneration

Regenerating neighbourhoods is vital to increase opportunities that connect local people to create economically viable places that will not only benefit the physical environment they live in, but also improve residents' overall quality of life and wellbeing. An important role for housing providers will be to foster a sense of identity, to encourage investment and to reduce deprivation. A priority is to ensure that communities are welcoming to all people regardless of religion, race or economic background.

Regeneration can be defined as activities that reverse economic, social and physical decline in areas where market forces will not do this without the support of government. To continue to build vibrant and welcoming places within Belfast it will be important that local communities are involved in decision making in their neighbourhoods, to identify priorities and plan solutions. There are a number of regeneration initiatives within Belfast which include:

Building Successful Communities

The Building Successful Communities programme is a strand of the 'Facing the Future - Housing Strategy for Northern Ireland' and aims to use housing interventions as a catalyst for local regeneration.

The objectives of the programme are to:

- improve current housing and infrastructure;
- deliver new social and affordable homes;
- deliver environmental upgrading works;
- improve access to amenities; and
- improve access to economic and social activity.

Six areas, five of which are in Belfast are included in the current programme. The areas in Belfast are - Lower Shankill/ Brown Square, Lenadoon and Glencolin, Lower Falls, Lower Oldpark and Hillview and Tiger's Bay. The programme is led by DfC and each area forum comprises political, statutory and community representatives. Funding totalling £3m per year is available and has been used to acquire land and provide infrastructural and environmental improvements across the various areas.

Urban Villages

Urban Villages is a programme under the Together Building a United Community strategy (TBUC). Four urban villages in Belfast have been declared in the programme. These are located across the city in Ardoyne/Ballysillan, Markets/ Donegall Pass, lower Newtownards Road and Colin. The overall programme is designed to improve good relations outcomes and to help develop thriving places where there has previously been a history of deprivation and community tension. Capital and revenue funding totalling almost £4m is available under this programme.

Update on Resources/Budget

The Housing Executive has not been able to set a budget for the forthcoming year as there has been no functioning government since January 2017. Therefore, no targets have been agreed for 2017-18, generating widespread uncertainty about funding over the coming year. The Housing Executive, along with other public bodies, must adapt with new, more effective and efficient ways of delivering high quality services for citizens in Northern Ireland.

The Community Plan will work alongside the Housing Executive to direct limited public sector resources more efficiently.

Progress Report

The following sections contain progress report tables for each HIP outcome. The tables detail progress of housing proposals set out in the HIP for 2015-19, new plans and schemes for 2017-19 and reaffirm the ten-year vision as well as linking our plans to the local Community Plan.

Where updated or new relevant data is available to that identified in the HIP, this has been incorporated in graphic or tabular form. The updated statistical information is reported by each HIP theme.

Table 1: Belfast Actual/Projected Public Sector Housing Spend

Activity areas	Actual spend £m	Projected spend £m
	2016/17	2017/18
Capital improvement work	13.81	19.88
Planned maintenance work*	17.15	23.41
Response maintenance	12.29	13.33
Private Sector Grants	1.55	1.64
Grounds Maintenance	1.20	1.92
Supporting People	23.97	22.61
Community Development	0.42	**
Investment in New Build***	41.76	****
Total	112.15	82.79

Source: NIHE

* Includes minor disabled person adaptations, redecoration and displacement grants.

** Community Development projected spend is not available.

*** Investment in new build is the total cost of schemes starting in the programme year but which may be spent over more than one year. The amount includes Housing Association Grant (HAG) and housing association funding.

**** The total cost of units in the gross SHDP for 2017/18 has not been finalised.

THEME ONE

Identify and meet housing need and demand

OUTCOME ONE IDENTIFY NEW HOUSING REQUIREMENTS				
Plans 2016/17	Progress	Plans 2017/19	Long term objectives	CP Ref
NIHE will update the Net Stock Model (NSM) in 2017 following the 2015 review of household projections.	Ongoing.	The NSM will be updated in 2017 and 2019.	NIHE will deliver updated objective assessments of affordable housing (social and intermediate housing) need by household type.	1.12
NIHE will carry out an annual five year projected social housing need assessment for Belfast.	Achieved. The five year social housing need for Belfast is 5,500.	NIHE will carry out an annual five year projected social housing need assessment for Belfast.	Continuously evaluate and update housing need and demand in line with best practice.	
NIHE will annually assess demand for intermediate housing for Belfast.	Achieved. The ten year intermediate housing need is 6,330.	NIHE will annually assess demand for intermediate housing for Belfast.		
NIHE will produce a HIP annual update for 2017/18 monitoring housing market performance across all tenures.	Achieved.	NIHE will produce a HIP annual update for 2018/19, monitoring housing market performance across all tenures.	Determine new housing requirements for local development planning through collaborative working between NIHE, DfC, NISRA and DfI.	1.12
DfI will review HGIs for LDPs.	Achieved. Revised annual HGI requirement for Belfast is 1,054 per year from 2012 to 2025.		NIHE will provide evidence based cross tenure analysis of the local housing market to inform Local Development and Community Planning.	1.12
NIHE will annually update councils with affordable housing need reports for the production of Local Development and Community Plans.	Achieved.	NIHE to deliver annual updates of affordable housing requirement to inform Local Development and Community Plans.		1.12
NIHE will review housing market geographies for NI and deliver Housing Market Assessments across NI.	Housing market geographies research scheduled to commence in 2017/18.	NIHE will commence programme to deliver Housing Market Assessments across NI upon the completion of the housing market geographies research.		1.12

Demographics

Multiple Deprivation Measure 2010

THEME FIVE

Delivering quality services

OUTCOME TEN DELIVER BETTER SERVICES				
Plans 2016/17	Progress	Plans 2017/19	Long term objectives	CP Ref
Increase rent collection to reinvest to improve services.	NIHE collected 99.29% of rent during 2016/17 in Belfast.	Increase rent collection to reinvest to improve services.	Maximise income to deliver better services and improve stock.	1.12
Reduce arrears to maximise income. Implement the Tenancy Fraud Action Plan.	Arrears increased slightly during 2016/17. Action Plan in place and statistics reported quarterly to DfC.	Reduce arrears to maximise income. Continue to report Tenancy Fraud statistics to DfC.	Monitor and reduce tenancy fraud.	
Maintain voids below 1% of total stock to make best use of housing stock and increase revenue from rents.	NIHE voids at April 17 were 0.56% of total stock in Belfast.	Maintain voids below 1% of total stock to make best use of housing stock and increase revenue from rents.	Make best use of stock.	
Implement the welfare reform project plan as required.	NIHE have established a project team and project plan to investigate all welfare changes; identify the impact on our customers and business, and to develop appropriate responses. We are working very closely with DfC on the reforms and associated mitigations.	NIHE will continue to communicate with tenants and applicants, provide advice and assistance on the impacts of welfare changes and the mitigations available, as well as assisting DfC deliver the reforms and associated mitigations where appropriate.	Make best use of stock, minimise arrears and help sustain tenancies.	1.3
Contribute to and support the DfC Fundamental Review of Social Housing Allocations.	Ongoing. NIHE continues to work closely with DfC to progress this review.	Continue to contribute to the DfC Fundamental Review of Social Housing Allocations.	To improve the process for housing assessment and allocation of social housing.	1.12
Implement the Sustaining Tenancy Strategy locally and incorporate the approach in the 'Build Yes' revised ways of working.	The approach outlined in the strategy has now been mainstreamed into the 'Build Yes' new ways of working.	We will be rolling out the new ways of working across the organisation.	Reduce tenancy failure and help tenants stay in their own home.	1.12
Continue to monitor tenants' satisfaction through the CTOS.	Ongoing.	Continue to monitor tenants' satisfaction through the CTOS.		1.12

Appendices

Appendix 6
Glossary

Affordable Housing	Affordable housing is defined as social rented housing and intermediate housing for eligible households.
Affordable Housing Fund	Administered by DfC, this finances an interest-free loan to housing associations, to fund the provision of new affordable homes and the refurbishment of empty homes.
Areas at Risk	This programme aims to intervene in areas at risk of slipping into social or environmental decline by working with residents.
Building Relations in Communities (BRIC)	Provides training on good relations and funding for good relations plans.
Building Successful Communities (BSC)	Carried out in a number of pilot areas; this uses housing intervention to regenerate areas and reverse community decline.
CAT	Community Asset Transfer provides for a change in management and/or ownership of land or buildings, from public bodies to communities.
Community Cohesion	Cohesive communities are communities where there is a sense of belonging, and there are positive relationships within the community, regardless of background.
CTOS	Continuous Tenant Omnibus Survey, is an assessment of the attitudes of Housing Executive tenants.
Decent Home	A decent home is one which is wind and watertight, warm and has modern facilities and is a minimum standard that all social housing should have met through time.
Department for Communities (DfC)	New government department in Northern Ireland which came into effect in May 2016 and replaces the Department for Social Development (DSD).
Disabled Facility Grant (DFG)	A grant to help improve the home of a person with a disability who lives in the private sector to enable them to continue to live in their own home.
Department for Infrastructure (DfI)	New government department in Northern Ireland which came into effect in May 2016 and replaces the Department for Regional Development (DRD).
Equity Sharing	Equity sharing allows social housing tenants to buy part of their dwelling (starting at 25%). The remaining portion is rented from the Housing Executive or registered housing association.
Floating Support	This enables users to maintain or regain independence in their own homes. Floating support is not tied to the accommodation but is delivered to individual users.
Fuel Poverty	A household is in fuel poverty if, in order to maintain an acceptable temperature throughout the home, it would have to spend more than 10% of its income on all household fuel.
Full Duty Applicant (FDA)	A Full Duty Applicant is a person to whom the Housing Executive owes a duty under Article 10 (2) of the Housing (NI) Order, 1988 to “ensure that accommodation becomes available for his/her occupation”.
HECA	Home Energy Conservation Authority, the Housing Executive is the HECA for Northern Ireland.
HMO	A House of Multiple Occupation means a house occupied by more than two people who are not members of the same family.

House Sales Scheme	The House Sales Scheme gives eligible tenants of the Housing Executive or registered housing associations the right to buy their property from their landlord at a discount.
Housing Growth Indicators (HGI)	Figures contained in the Regional Development Strategy to estimate the new dwelling requirement for council areas and the Belfast Metropolitan Urban Area for 2012-25.
Housing Market Area	A housing market area is the geographic area within which the majority of households move, work and live.
Housing Market Analysis (HMA)	This is an evidence base for housing and planning policies, which examines the operation of Housing Market Areas, including the characteristics of the housing market, how key factors work together and the potential housing need and demand on a cross tenure basis.
Housing Needs Assessment	This is an assessment of local housing needs primarily in relation to general needs social housing, supported housing, travellers and affordable housing.
Housing Stress	Applicants on the waiting list who have a points total 30 points or above are considered to be in housing stress, or housing need.
Intermediate Housing	Intermediate Housing consists of shared ownership housing provided through a registered housing association (e.g. the Co-Ownership Housing Association) and helps eligible households who can afford a small mortgage, but that are not able to afford to buy a property outright. The property is split between part ownership by the householder and part social renting from the registered housing association.
Latent demand test	Housing needs survey carried out in a rural area to assess any potential hidden need.
Mandatory repair grant	This is a grant made available by the Housing Executive to landlords who have been served a repair notice by the council.
Neighbourhood Renewal	Government departments and agencies working in partnership to tackle disadvantage and deprivation.
Net Stock Model	An assessment of housing need at a Northern Ireland level, using net household projections.
NIFHA	Northern Ireland Federation of Housing Associations.
NISRA	Northern Ireland Statistics and Research Agency.
Oil buying clubs	Oil buying clubs are designed to help consumers reduce their costs by purchasing oil orders in bulk as part of a group.
PCSPs	Policing and Community Safety Partnerships.
PPS	Planning Policy Statement.
SCNI	Supporting Communities Northern Ireland provides training and funding for community groups.
Shared Housing	These are communities where people choose to live with others regardless of their religion or race, in a neighbourhood that is safe and welcoming to all.
SHDP	Social Housing Development Programme, the SHDP provides grant to housing associations to build social housing. The programme is managed by the Housing Executive on a three-year rolling basis.
Smartmove Housing	This is a charitable organisation offering advice; support and accommodation to people that are homeless and in acute housing need.

Social Enterprise	Social enterprises are businesses with primarily social objectives whose profits are reinvested to achieve these objectives in a community.
Social Rented Housing	Social Rented Housing is housing provided at an affordable rent by the Housing Executive and registered housing associations; that is, housing associations, which are registered and regulated by the Department for Communities as a social housing provider. Social rented accommodation is offered in accordance with the Common Selection Scheme, administered by the Housing Executive, which prioritises households who are living in unsuitable or insecure accommodation.
SPOD	Small Pockets of Deprivation is a delivery vehicle for neighbourhood renewal.
Stock Transfer Programme	The aim of the Stock Transfer Programme is to deliver major refurbishment works to social homes through transfer of stock from the Housing Executive to housing associations.
Supported Housing	A term used to describe a range of both long and short-term accommodation provided for people who need an additional level of housing related support to help them lead an independent life.
Supporting People Programme	The Supporting People Programme is designed to provide housing related support to prevent difficulties that can typically lead to hospitalisation, homelessness or institutional care and can aid a smooth transition to independent living for those leaving an institutionalised environment.
TBUC	The Northern Ireland Executive Together Building a United Community Strategy containing objectives for a united and shared community and improved community relations.
