

## Appendix 1 – Regeneration and Environmental Improvement Actions for Castle Arcade

| Time Frame                | Activity   | Responsible Organisation   |
|---------------------------|--|--|
| Short –<br>Medium<br>Term | Deep Clean (underfoot and walls) to be maintained in addition to existing street cleansing operation   | Belfast City Council   |
|                           | Temporary Removal of Litter Bin as it is being used to dispose of drug litter and needles  | Belfast City Council   |
|                           | All existing lighting to be fixed and maintained   | Department for Infrastructure  |
|                           | Temporary LED lighting to be installed in the Arcade to improve safety and encourage footfall with DfI covering cost of providing power to this lighting until final lighting design for the overall Arcade is as part of the medium-long term plan. Please note maximum one off £10,000 cost to Council which can be covered from within existing revenue budgets.  | Belfast City Council<br>Department for Infrastructure  |
|                           | Painting of available wall space in lighter colour and anti-graffiti layer to make future graffiti removal easier  | Council  |
|                           | Removal and restoration/replacement of historical wall mounted murals  | Department for Communities   |
| Medium –<br>Long Term     | Directional Signage to be considered at each end of the Arcade to let users know where the Arcade will take them to. This signage could make reference to the historical nature of Castle Arcade to encourage footfall.  | Belfast City Council<br>Department for Communities   |
|                           | Ongoing maintenance of deep clean status weekly  | Belfast City Council   |
|                           | Small number of family friendly activities to be delivered on Saturday/Sunday afternoons to encourage footfall in Arcade by Children and Young Peoples Team. The Arcade will need to be partially closed (not the whole Arcade) in advance of these events for health and safety reasons to maintain the deep clean status in advance of these events.   | Belfast City Council   |
|                           | Council to facilitate ongoing liaison between managing agents and architects and other key internal and external stakeholders to re-vision and develop the identity of Castle Arcade in the context of its historical context, city centre living and supporting economic vibrancy in the area (longer term environmental improvements and retail/animation options). Further updates will be provided to Committee for consideration as they are developed. | Belfast City Council<br>Department for Infrastructure<br>Department for Communities<br>Managing Agents/Architects<br>Businesses (BCCM)<br>Outreach Organisations |
|                           | Pre-Employability Programmes to be delivered to support NIHE Case Conference for vulnerable individuals (supported by main service providers).   | Belfast City Council   |
