2.0	Recommendations
	The Committee is asked to note this update.
3.0	Main report
	<u>Key Issues</u> Members may be aware that officers have recently undertaken an internal audit to identify potential Day 1 service implications in relation to Brexit. This audit has identified that there

are several key areas where there may be a potential impact in the event of a no deal Brexit. However further scoping work is required to define the potential Day 1 impacts, risks and possible mitigations. These areas include HR, finance/funding, procurement, waste, port health, product safety, communications and business continuity management.

Officers are currently undertaking this work and it is anticipated that it will be completed by mid-December. It is likely that further work may be required as a result of the findings of this scoping exercise and that it will also be influenced by the wider developments that are taking place in relation to Brexit. An update on this work will be brought to the Committee in the New Year.
