X Yes □ No (go to Q.4) □ Not applicable (go to Q.4)

Please provide any details and examples:

The application of the Equality Scheme, specifically through the screening process resulted in changes to processes and service delivery, with the following equality mitigation actions highlighted during the screening process as follows:

Language Action Plan 2018/2020

Belfast City Council launched its Language Strategy during April 2018 and it will run until 2023. A separate screening focused on the Language Strategy Action Plan and those actions to be delivered as part of the strategy. The aim of the Action Plan is to present a range of actions and targets which will implement the Language Strategy enabling the council to provide a greater range of services through a range of languages other than English. The screening highlighted minor positive impacts on the section 75 categories of religious belief, political opinion, racial group, age, disability and dependants. These are outlined as follows:

Religious belief, political opinion and racial groups:

The Language Strategy Action Plan was developed and written with the intention of increasing equality of opportunity and access to services to people regardless of religious belief. There was extensive and lengthy consultation with various language communities including Irish, Ulster-Scots and ethnic minorities to assess their needs and to hear what level and types of service they would like to see from the council. Since their appointment, the Irish Language Officer and the Language Officer have engaged extensively within language communities on what support they needed from the council and the action plan is laid out in a way which reflects those opinions.

In the context of Northern Ireland, it is often perceived that political, religious and racial background are interrelated and the action plan will take positive steps to address this in the context of language.

Age:

There are a range of opportunities emanating from the Language Strategy Action Plan which can benefit users of various languages across differing age spans. The action plan has the potential to positively impact on young people who attend an Irish-medium school or those who are learning a new language. In addition, it will also potentially impact positively on the following:
- The children of D/deaf adults
- The families of people with disabilities
- Older people who are experiencing hearing loss
- Older people learning another language

Disability:
As one of the strands of the Language Strategy focuses on languages and communications for people with disabilities, there are opportunities in the action plan to increase and make services more accessible for people with disabilities.

Dependants:
The Action Plan has the potential to raise awareness of the services that people who have a dependant who is D/deaf or disabled, or a child of a D/deaf adult, can use and impact on them positively. The Plan will also raise awareness of the barriers and challenges faced by families with dependants in terms of access to services.

An Aquatics Strategy for Belfast 2018/2020
This is a new policy which covers the period 2018-2020 and which has an overarching focus on getting more people, more active, more often. The strategy has been developed in response to the Council’s upgrade of existing facilities and the development of new facilities. This has resulted in the provision of additional water facilities and the strategy will assist in managing and programming these.

The strategic vision for the strategy is to promote a top class aquatics service designed to promote social regeneration, tackle health inequalities, ensure affordable equitable access for all, maximise participation and enable people to reach their full potential. It was written taking account of the capital investment programme and with particular focus on alignment with the Belfast Agenda 2017-2021. The screening highlighted potential minor positive impacts on age, men and women generally and disability.

Research undertaken in the development of the strategy showed that there is a potential within to have a positive impact on several groups and strategic objectives and priorities were included to address these. There is also a strategic objective of “Focus on priority target groups” and a priority around increasing participation from traditionally underrepresented groups. Within the strategy there are also two strategic objectives that aim to increase participation across all groups and therefore have the potential to have a positive impact on everyone including:

- Equitable access for all users recognising the different needs of particular groups
- Balanced and fair booking policies with an emphasis on shared use

Age:
During the screening of the strategy, it was identified that the usage of the council’s pools is across all age groups and there was therefore a potential for people of all ages to be positively impacted upon. In particular, given the high usage of pools by schools
and clubs there is a high potential of a positive impact on children and young people. Evidence also revealed a high level of usage by people aged 60+.

Men and Women:
The evidence has revealed that there is a higher pool usage among males rather than females and therefore there is potential to have a positive impact on females through increasing participation in this under represented group.

Disability:
The evidence shows that there are membership holders with a range of disabilities and therefore there is a potential to have a positive impact through increasing participation in this under represented group.

11 Please provide any details and examples of good practice in consultation during the 2018-19 reporting period, on matters relevant (e.g. the development of a policy that has been screened in) to the need to promote equality of opportunity and/or the desirability of promoting good relations:

Achieving Through People Framework

This is a new corporate framework which sets out new organisational values and behaviours for all employees (specified at employee, manager and senior manager levels). Once fully developed, the framework will be rolled out corporately to all staff and aligned to various key people management processes such as senior management appraisal, staff PDP processes etc. The Framework sets out the effective behaviours that all employees are expected to display.

During August/September 2018, a series of focus groups were held with staff from the following groupings – business support, operational managers, team leaders/supervisors and professional. In addition, Trade Unions and representatives from the Council’s staff networks (disability, women and LGBTQ) were also consulted. Nominations were sought via departmental business support to ensure a cross representative sample was achieved.

The Framework is in the final stages of development and, once implemented, a further screening will be carried out to assess what has been achieved, against what was planned. The Framework will be closely aligned to the Corporate People Strategy which is currently being developed and monitoring the application of this will be a key feature going forward.

**Amateur Boxing Strategy for Belfast 2012/2022 – additional funding to IABA to deliver action plans for 17/18 and 18/19**

The Amateur Boxing Strategy was developed by the Council and partners to consider the role and development of amateur boxing in Belfast. A contribution of £200k per year over 3 years from April 2013 was agreed by the Council to enable implementation of the Strategy’s action plans. The Strategy and associated action plans were equality screened at this point.

Due to a delay in recruiting staff, the funding was spread over a longer period and this funding ceased from 31st March 2017.

Following lobbying from the boxing sector, the Council agreed to directly fund the Irish Boxing Association (IABA) to deliver elements of the strategy during 17/18 as outline below:

- Events (£24k) – ring fenced from Support for Sport budget (agreed by People and Communities Committee (March 2017))
- Action Plan (£45k) – agreed by Strategic Policy and Resources Committee in June 2017 following request by IABA for £101k – supported by an action plan
- Additional funding agreed by People and Communities Committee (£49k) – delegation from boxing presented to that Committee in December 2017 and this amount was agreed from Departmental underspend.

The Strategic Policy and Resources Committee, at its rate setting meeting in January 2018 considered a request from Antrim Boxing and IABA for funding of £200k per annum to sustain the Belfast Amateur Boxing Strategy for 2020. It agreed to provide £200k for 18/19 within the revenue estimates. Members asked that an equality screening be undertaken prior to consideration being given for funding for 19/20 and this screening was undertaken and presented to the Committee during 2018/2019 reporting period.

22 Please provide any details or examples of where the monitoring of policies, during the 2018-19 reporting period, has shown changes to differential/adverse impacts previously assessed:

None.

23 Please provide any details or examples of monitoring that has contributed to the availability of equality and good relations information/data for service delivery planning or policy development:

Belfast City Council has identified the need to support Sign Language users; British Sign Language and Irish Sign Language in accessing their services. We recognise the barriers in telephone communication and face to face communication with council staff for Sign Language users. We are committed to removing these barriers and the provision of a Video Relay Service and Video Remote Interpreting service will pave the way in ensuring Sign
Language users can communicate effectively with Council staff via Registered Sign Language Interpreters.

A pilot for a period of 12 months will be delivered by the Council from May 2019, to provide a Video Relay Service and Video Remote Interpreting service for British Sign Language users. We want to be in a position to monitor the effectiveness of the service within a pilot timeframe before rolling it out on a long term contract.

The following will be provided during the pilot:

- Video Relay Service – installed and in use via the Council’s Contact Us webpage;
- Video Remote Interpreting – installed at reception desks at the following Council venues; Cecil Ward, Olympia Leisure Centre and Belfast Zoo
