

Standing Order 13(I)

No notice of motion seeking to commit the Council to expenditure not previously agreed through the Committee process will be considered but shall instead stand referred to the appropriate Committee for consideration and report. This standing order will not apply with the Lord Mayor, in consultation with the Chief Executive, rules that the matter is one of emergency or is otherwise of such urgency that it would be impracticable or prejudicial to the Council's interests to require compliance. In this case, a report outlining specific details of the purpose of such expenditure and the budget from which the expenditure would be drawn from shall be put before Members.
