

## **Road Safety Review**

Communities around the City Centre, in all quarters of Belfast, face issues attached to commuter parking, high density traffic volumes and services proximity. The resulting infrastructural impacts include damaged road surfaces, outdated safety measures, inadequate parking controls and poor air quality. Such areas generally house dense residential communities including schools who are at the front line of daily road safety concerns.

The inner-city surrounding communities of Belfast are also dissected by the Westlink further straining the already at breaking point road capacity.

This Council has a duty of care to citizens and in the vein of the Belfast Agenda a commitment to ensure people can live in safety and with improved health outcomes. As such, this motion asks that a letter be sent to the Minister for Infrastructure to commission a road safety review of inner-city surrounding communities in all quarters of the City. This should include review of road surfaces, safety measures, parking restrictions and accident volume.
