

Environmentally Sustainable Event Spaces

This Council has a long-standing track record of working with event promoters to host significant events and concerts within the Council's estate across the city.

The Council should be commended for the role it plays in facilitating and promoting a vibrant calendar of events within our estate.

As we look into the future, our position as a Council in declaring a climate emergency and the stark indications presented within Intergovernmental Panel on Climate Change (IPCC) Report, we must find ways and offer solutions to mitigate against the catastrophic effects of climate change.

Making our event venues more environmentally sustainable, with access to clean energy (Electricity) and running water will help mitigate the necessity for Fossil Fuel energy combustion and plastic pollution derived from plastic products.

Therefore, this Council will commit to a timetable and plan for delivering the physical means for environmentally sustainable event spaces with Clean Energy (Electric) power sources and Running Water points to mitigate against plastic pollution.

Proposer: Councillor Garrett

Seconder: Councillor Bradley

(To be referred to the Strategic Policy and Resources Committee)
